# Accessibility Statement for Information Technology

This is an accessibility statement from Fix Daddy.

## Measures to support accessibility

Fix Daddy takes the following measures to ensure accessibility of Information Technology:

- Include accessibility as part of our mission statement.
- Include accessibility throughout our internal policies.
- Integrate accessibility into our procurement practices.
- Appoint an accessibility officer and/or ombudsperson.
- Provide continual accessibility training for our staff.
- Assign clear accessibility goals and responsibilities.
- Employ formal accessibility quality assurance methods.

## Conformance status

The [Web Content Accessibility Guidelines (WCAG)](#) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. Information Technology is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.

## Technical specifications

Accessibility of Information Technology relies on the following technologies to work with the particular combination of web browser and any assistive technologies or plugins installed on your computer:

- HTML

These technologies are relied upon for conformance with the accessibility standards used.

## Assessment approach

Fix Daddy assessed the accessibility of Information Technology by the following approaches:

- Self-evaluation
- External evaluation

## Date

This statement was created on 11 September 2022 using the [W3C Accessibility Statement Generator Tool](#).
